High Power 240V Outlet

NEW!
17,500
WATT

15,000 / 17,500 WATT MODEL

The **GUARDIAN Ultra Source** portable features the Generac OHVI® engine renowned for its reliability, long life and impressive performance.

Paired with our manual transfer switch, the new 17,500 watt makes it easy to use a portable generator during an outage. With up to 16 pre-wired circuits, all that's required is to start the generator and plug it in. By flipping a single switch, the utility is locked out and pre-selected loads are transferred to the generator.

- **Breakthrough Design:** Creates the greatest starting power to run the items that matter most (starts a 5-ton A/C unit)
- **Generac OHVI® Industrial Engine:** Engineered for efficient, uninterrupted performance to get the job done - whether you're powering up your house or your jobsite.
- Automatic idle control
- Automatic voltage regulation
- 16 gallon fuel tank
- Electronic governor
- Wheel kit & heavy duty lifting eye
- EPA/CARB certified
- Electric quick start
- Circuit breaker protected outlets
- 10 hour run-time at 1/2 load
- 13" all terrain tires
- Starting battery
- Preventative maintenance kit
